2. Press the Enroll button

You now can see the sample testing platform examinations:

There currently are multiple non-diabetes related practice examinations available in our Top Hat course. At this time, please log into Top Hat, enter our course, and utilize the sample tests provided. They can be found in the “Assigned” tab of the course. These practice examinations are worth no marks and are purely for the purpose of familiarizing yourself with the remote proctoring process. If you run into problems accessing the practice test, reach out to Proctorio’s support team via the live chat icon or contact our office.
